

DPS STS SCHOOL DHAKA

BITS N BYTES

29th August, 2021(Sunday)

Enthusiastic Nursery Learners

Students of Nursery learned about the shape- Triangle; also learned to make a tree using the shape. They had another activity of making party hat which looks like a triangle too.

Champs of FS1

FS1 champs did an activity on "Pattern" this week. It was a functional activity to do. The ability to recognize and create patterns help children to make predictions based on their observations. This activity allowed children to see relationships and develop generalizations. Moreover, the identification of colours helped them to create the cognitive link between visual clues and objects.

Creative FS2 Learners

The little mathematicians have learned a new concept called '3D Shapes'. They have learned about the 3D shapes and its features. They have become aware that not all shapes are created equal; they have different attributes and features. Comparing a variety of 2D and 3D shapes allows them to explore some of the similarities and differences.

The creative learners of FS2 made some delicious looking Paper Plate Pizzas. They made pizza with paper plate and made different toppings using different coloured papers. This activity will help them to develop their fine motor skills.

Janmashtami

Janmashtami, Hindu festival celebrating the birth (janma) of the god Krishna on the eighth (ashtami) day of the dark fortnight of the month of Bhadrapada (August–September). The number eight has another significance in the Krishna legend in that he is the eighth child of his mother, Devaki.

The occasion is observed especially in Mathura and Vrindavan (Brindaban), the scenes of Krishna's childhood and early youth. On the preceding day, devotees keep a vigil and fast until midnight, the traditional hour of his birth. Then the image of Krishna is bathed in water and milk, dressed in new clothes, and worshipped. Temples and household shrines are decorated with leaves and flowers; sweetmeats are first offered to the god and then distributed as prasada (the god's leftovers, which carry his favour) to all the members of the household. The devotees of Krishna commemorate the events of his birth by preparing elaborate representations of Mathura, where he was born, the Yamuna River, over which he was transported to safety, and Gokul (ancient Vraja), the scene of his childhood, using small images of the god, the other participants, and the animals and birds of the forest. Pots of milk are hung from tall poles in the streets, and men form human pyramids to reach and break the pots—this in imitation of Krishna's childhood play with the cowherd boys, when they stole the curds hung out of reach by their mothers. The festival is also a time for group singing and dancing.

EYFS- Nursery Upcoming Theme- Growing a garden

Communication & Language:

We will be watching plenty of stories, videos & will make our own stories to explore - how to plant seeds; what are the resources we will need for gardening which will help us improve our communication.

Literacy:

We will be enjoying the sound and rhythm of rhymes; explore the texture and other properties of different materials for gardening and will explore new words every day through key words.

Numbers:

We will be developing our understanding of numbers by looking closely at the different shapes & sizes of the leaves and counting petals of the flowers or the leaves of different plants.

Expressive Art & Design:

We will appraise different songs and rhymes thinking about how they make us contemplate about gardening. Imagine how the children can decorate different flower shapes. Using tissue, foil, print with potatoes & carrots or sponge painting etc. There will be insects or birds in the garden as well.

Understanding the World:

We will be doing "Role play" of a gardener while taking care of our garden; or a shopkeeper selling flowers & plants; using pretend money or pretty cellophane paper to

Personal, Social & Emotional Development:

We will be spending lots of time talking about gardens. What is a garden? Talking about things that grow in a garden, why people have gardens, what do people do in gardens?

FS1: Arneev Aarav Hui

FS2: Rawfin Nehan Khan, Ayat Binte Khan, Ruhaan Rayyan Hussain
